

## Speedfoam®

Low loss flexible  
communications cable

## Speedfoam®

Low-loss Flexible Communications Cable

**Speedfoam can be used in most applications where high performance coaxial cables are used.**

### Engineering Data

Habia Ref	Material	Speedfoam 300		Speedfoam 400		Speedfoam 500		Speedfoam 700		Speedfoam 900	
		Diameter (mm)	(in)								
1 Conductor	Solid bare copper or Solid copper covered aluminium	1.12	0.044	1.42	0.056	1.78	0.070	2.75	0.108	3.61	0.142
2 Dielectric	Foamed polyethylene	2.95	0.116	3.81	0.150	4.83	0.190	7.24	0.285	9.40	0.370
3 Outer Conductor (a)	Aluminium/Mylar tape, bonded to dielectric	3.07	0.121	3.94	0.155	4.98	0.196	7.40	0.291	9.55	0.376
4 Outer Conductor (b)	Braid of tin plated copper	3.66	0.144	4.52	0.178	5.72	0.225	8.10	0.320	10.30	0.405
5 Jacket	Low smoke, zero halogen, black	4.95	0.195	6.10	0.240	7.62	0.300	10.30	0.406	12.70	0.500

Note: all figures are nominal unless otherwise specified

### Introduction

Over a number of years, Habia Cable has developed, together with our worldwide telecommunications customers, a complete range of RF cables to meet their demands in an industry where product innovation is moving ahead at a tremendous pace. To further enhance these products we have developed our Speedfoam range of cables.

The Speedfoam range consists of low loss communications cables specifically designed to meet the increasing demands of the Telecommunications Industry. Speedfoam is a halogen free series of cables using highly foamed, closed-cell PE dielectric with a screen of tightly bonded, overlapped aluminium tape and an overall braid. This results in cables with excellent shielding properties and phase stability.

The jacket is of flame retardant PE with resulting cables being totally halogen-free, low-smoke and flame retardant to IEC 60332-3C. The cables have a lower loss than their equivalent sized, solid dielectric cables and at a lower cost.

### Features & Benefits

- Outstanding shielding properties
- Good phase stability
- Up to 2.5 GHz operating frequency
- Good flexibility
- Improved attenuation
- Excellent against cross-talk
- Halogen-free, low-smoke & flame retardant
- Light weight
- UV sunlight resistance 720h, passes UL 1581

### Custom Design

Variations on our standard versions are available on request

- \* Cross-linked versions to increase operating temperature
- \* UL versions to meet the requirements of the US market
- \* Versions with improved properties for outdoor usage with increased resistance to moisture, UV and the elements
- \* Radiation tolerant version available

### Connectors

Details of compatible types can be provided on request.

### Cable Marking

Jackets of all cables are marked with type and date of manufacture

### Typical applications

- Drop-in, jumper assemblies
- Short antenna feeders
- Internal cabinet wiring
- System interconnects
- Inter-cabinet jumper leads
- Base station external jumpers
- Satellite terminals
- Antenna applications
- In-building applications

 Back page ..... Ericsson

### Custom Design

- Cross-linking
- UL- standards
- Outdoor usage types
- Radiation tolerant

# Speedfoam® 300

Low-loss Flexible Communications Cable

## Engineering Data

### Cable Design

		$\varnothing$ (mm)
Centre conductor .....	solid bare copper	1.12
Dielectric .....	foamed polyethylene	2.95
Outer conductor .....	al/mylar tape, bonded to dielectric	3.07
..... braid of tin plated copper		3.66
..... overall coverage 100 %		
Jacket .....	LSOH, black	4.95
Marking .....	Habia Cable Speedfoam 300, ..... and date of manufacture	

### Electrical Data

Impedance .....	$50 \pm 2 \Omega$
Capacitance .....	80 pF/m
Velocity of signal propagation.....	83 %
Signal delay .....	4 ns/m
Working voltage, maximum.....	V
Shielding effectiveness .....	$>90$ dB
Attenuation, typical values .....	see graph
Power, typical values .....	see graph
DC resistance, inner conductor .....	17.6 $\Omega$ /km
DC resistance, outer conductor .....	16.1 $\Omega$ /km

### Environmental & Mechanical

Minimum bend radius, single bend .....	13 mm
Minimum bend radius, multiple bends .....	50 mm
Weight .....	35 kg/km
Operating temperature .....	-40 to +80 °C
Flame resistance, passes .....	EC 60332-3C, IEEE 383
Smoke, passes.....	EC 61034-2
Halogens, passes .....	EC 60754-2

### Connectors

Information can be provided on request.

## Additional Information

### Speedfoam 300 UL 1375

UL version in accordance with AWM style 1375.	
Specification.....	As Speedfoam 300
Working voltage .....	V
Operating temperature.....	+60 °C
Flame rating .....	UL 1581 VW-1
Our file no .....	E75929

### Speedfoam 300 XL

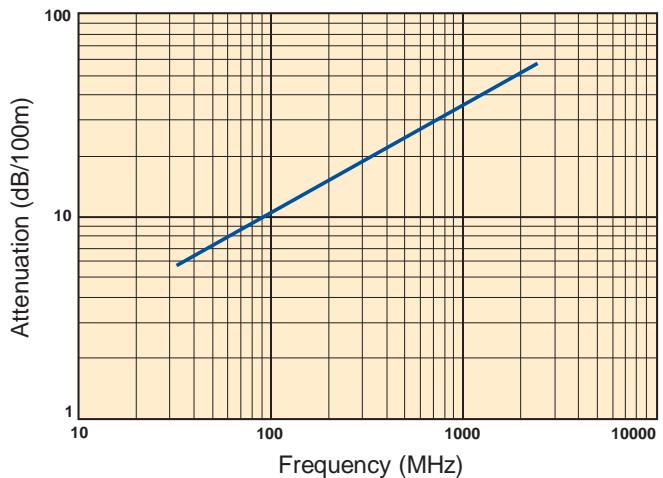

Cross-linked version

Specification.....	As Speedfoam 300
Operating temperature.....	+100 °C

Note: all figures are nominal unless otherwise specified

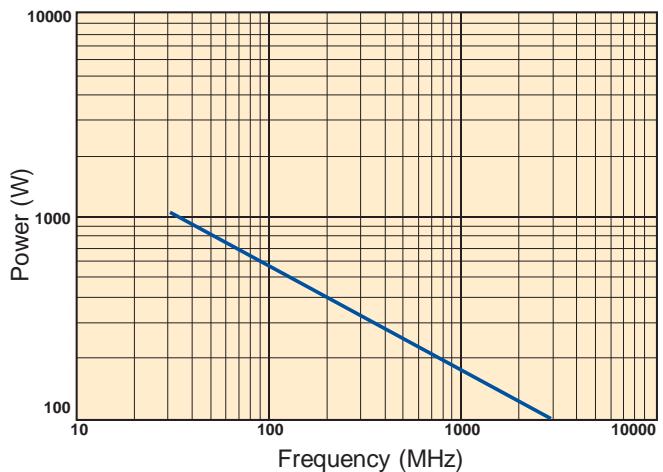

### Cable Attenuation

Nominal values @ +25°C ambient temperature

### Average Power

Ambient temperature 40°C at sea level & VSWR1.0

### Custom Design

A radiation resistant version can be manufactured with a copper foil (10<sup>6</sup> Gy)  
Different types of jacket available  
Please ask for details

All Speedfoam types are Low-Smoke, Zero-Halogen

Internet ..... <http://www.habia.com>

International Telephone ..... +46 (0) 293 22000

## Speedfoam® 400

Low-loss Flexible Communications Cable

### Engineering Data

#### Cable Design

	Ø (mm)
Centre conductor .....	solid bare copper
Dielectric .....	foamed polyethylene
Outer conductor .....	al/mylar tape, bonded to dielectric
..... braid of tin plated copper	4.52
..... overall coverage 100%	
Jacket .....	LSOH, black
Marking .....	Habia Cable Speedfoam 400, and date of manufacture

#### Electrical Data

Impedance.....	$50 \pm 2 \Omega$
Capacitance.....	79 pF/m
Velocity of signal propagation .....	84 %
Signal delay.....	4 ns/m
Working voltage, maximum .....	V
Shielding effectiveness.....	>90 dB
Attenuation, typical values.....	see graph
Power, typical values .....	see graph
DC resistance, inner conductor.....	10.5 $\Omega$ /km
DC resistance, outer conductor .....	12.8 $\Omega$ /km

#### Environmental & Mechanical

Minimum bend radius, single bend .....	20 mm
Minimum bend radius, multiple bends.....	60 mm
Weight.....	59 kg/km
Operating temperature.....	-40 to +80 °C
Flame resistance, passes.....	EC 60332-3C, IEEE 383
Smoke, passes .....	EC 61034-2
Halogens, passes .....	EC 60754-2

#### Connectors

Information can be provided on request.

### Additional Information

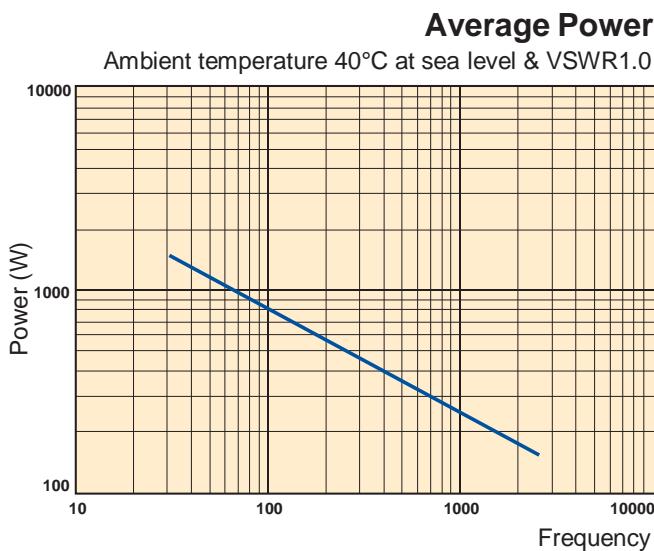

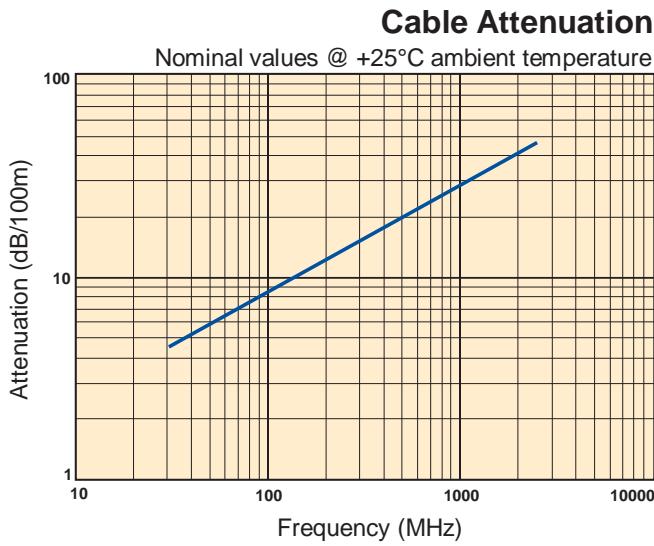

#### Speedfoam 400 UL 1375

UL version in accordance with AWM style 1375.	
Specification .....	As Speedfoam 400
Working voltage .....	V
Operating temperature .....	+60 °C
Flame rating .....	UL 1581 VW-1
Our file no.....	E75929

#### Speedfoam 400 XL

Cross-linked version	
Specification .....	As Speedfoam 400
Operating temperature .....	+100 °C

Note: all figures are nominal unless otherwise specified

#### Custom Design

A radiation resistant version can be manufactured with a copper foil (10° Gy)  
Different types of jacket available  
Please ask for details

## Speedfoam® 500

Low-loss Flexible Communications Cable

### Engineering Data

#### Cable Design

		$\varnothing$ (mm)
Centre conductor.....	solid bare copper	1.78
Dielectric.....	foamed polyethylene	4.83
Outer conductor.....	al/mylar tape, bonded to dielectric .....braid of tin plated copper	4.98 5.72
.....overall coverage 100%		
Jacket .....	LS0H, black	7.62
Marking.....	Habia Cable Speedfoam 500, .....and date of manufacture	

#### Electrical Data

Impedance .....	50 ± 2 Ω
Capacitance .....	79 pF/m
Velocity of signal propagation.....	85 %
Signal delay.....	4 ns/m
Working voltage, maximum .....	V
Shielding effectiveness.....	>90 dB
Attenuation, typical values .....	see graph
Power, typical values .....	see graph
DC resistance, inner conductor .....	7.0 Ω/km
DC resistance, outer conductor .....	7.5 Ω/km

#### Environmental & Mechanical

Minimum bend radius, single bend .....	23 mm
Minimum bend radius, multiple bends .....	75 mm
Weight.....	94 kg/km
Operating temperature.....	-40 to +80 °C
Flame resistance, passes .....	EC 60332-3C, IEEE 383
Smoke, passes.....	EC 61034-2
Halogens, passes .....	EC 60754-2

#### Connectors

Information can be provided on request.

### Additional Information

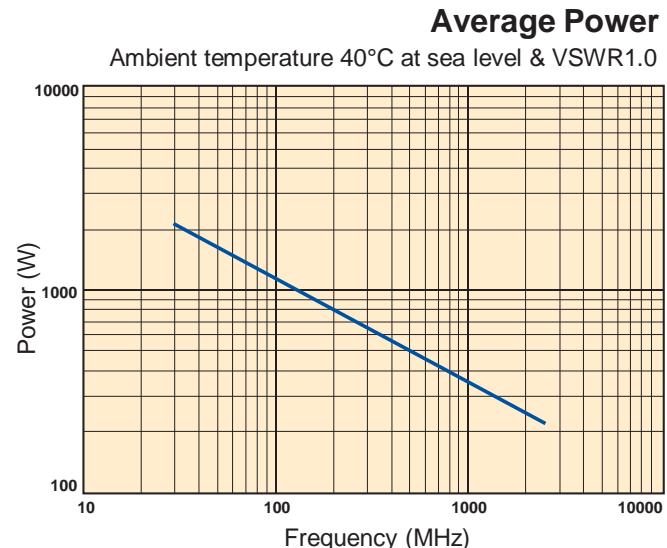

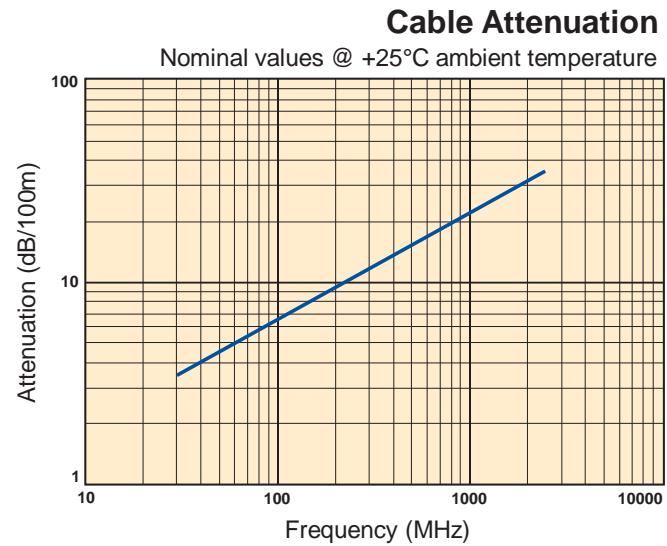

#### Speedfoam 500 UL 1375
